RENTALS

Our rental program is supported by an extensive, in-stock parts inventory and friendly and reliable service technicians.

Control your expenses with a fixed monthly cost that includes all parts & labor charges. For simplicity and transparency, rental agreements are drawn directly between Summit Supply and our customers. We do not use a third-party leasing company.

TABLES

Our inventory includes a great selection of straight dishmachine tables, in both left-hand & right-hand models.

We also provide solutions for your custom needs. Call us at 603.679.1222 and ask about complete installation.
