

We are thrilled that **Gasket Guy** has joined forces with Summit Supply. We are able to provide our New Hampshire, Massachusetts, and Maine customers the entire **Gasket Guy** product line and installation services.

Our gaskets are made in the USA, and meet or exceed OEM specifications.

As the largest installer of custom, commercial refrigeration gaskets and hardware, we provide fast turn around and all-inclusive pricing.

Call us now to schedule your **no-charge** inspection and evaluation.

Worn and Cracked Gaskets...

Cost You Money - Escaping cold air wastes electricity and can overload your compressor!

Are Unsanitary - Cracked gaskets provide a hard-to-clean breeding ground for salmonella and other disease causing microorganisms.

Can Be Expensive to Replace - We provide high quality gaskets for up to 30% less than what you are paying now.

Replacing Cutting Boards...

Will help you pass health inspections by creating a cleaner and more sanitary kitchen environment.

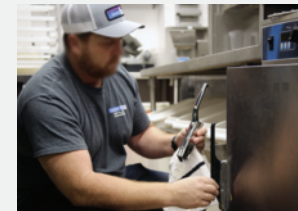

Eliminates cross contamination by implementing color boards for different food categories.

Eliminates bacteria that is harbored in knife grooves of old worn boards.
